Election/Restrictions

1. Claims 1 and 7 are allowable. Claims 4-5 and 10-11, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of the allowable claims, respectively. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among species of the invention being rejoined, as set forth in the Office action mailed on 03/20/06, is hereby withdrawn** and claims 4-5 and 10-11 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: claims 1-12 are allowed at least for the reason that the prior art of record does not teach or reasonably suggest the scanning line alignment compensation apparatus and method for a laser scanning unit, which comprises at least one sync signal detection sensor for

Art Unit: 2861

generating a sync signal based on at least one of the first laser diode and the second laser diode and for generating at least one offset signal having first and second detection periods based on the sync signal generated based on the at least one of the first and the second laser diodes, a compensating unit compensating for first and second video data input in synchronization with a video clock based on the first and second sensor detection periods, and a laser diode control unit outputting control signals to control the first laser diode and the second laser diode based on the compensated first and second video data, as set forth in the claimed combination.

The reason for allowance of claims 15-18 has been stated in the previous Office action issued on 06/22/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
